INTRODUCTORY SECTION

East Cedar Creek Fresh Water Supply District

P.O. Box 309
Mabank, TX 75147

July 18,2023

To the Board of Directors
East Cedar Creek Fresh Water Supply District
Mabank, Texas

Dear Board of Directors:

The Comprehensive Annual Financial Report (“CAFR”) of the East Cedar Creek Fresh Water Supply District (“District”), for the year ended March 31, 2023, is submitted herewith.

Management assumes full responsibility for the completeness and reliability of the information contained in the report, based upon a comprehensive framework of internal control that is established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Mike Ward, CPA P.L.L.C. have issued an unmodified (“clean”) opinion on the District’s financial statements for the year ended March 31, 2023. The independent auditor’s report is located in the beginning of the financial section of the ACFR.

This letter of transmittal is designed to complement Management’s Discussion and Analysis (MD&A) and should be read in conjunction with it. The District’s MD&A can be found immediately following the independent auditors’ report and provides a narrative introduction, overview, and analysis of the basic financial statements.

GENERAL INFORMATION – EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT

The East Cedar Creek Fresh Water Supply District is located in Henderson County in the Northeast region of Texas.

The Board of Directors is comprised of a President, Vice-President, Secretary, Treasurer and three Directors and is responsible for enacting rates, resolutions, and regulations governing the District, as well as appointing the members of various statutory and advisory boards. The General Manager is the administrator of the District and is responsible for the enforcement of the Board’s decisions and supervision of each department of the District.

ECONOMIC CONDITIONS AND OUTLOOK

The District's pre-audit fiscal year ending 2022-2023 reflects a strong debt service ratio of 1.56, the post-audit fiscal year ending 2022-2023 reflects a strong debt service ratio of 1.44 (page 57). The Average Debt Running Ratio over the remaining years of bond debt payments is 2.05 (page 58). It is the goal of ECCFWSD to maintain a fiscal year debt service ratio of 1.25. If the District's fiscal year goal is below the 1.25 ratio management must provide supporting data as to why the goal was not met and report to the Board of Directors if the reason is significant enough to initiate a rate review. The economic condition of ECCFWSD is very sound and to ensure that this condition remains sound the District has monitoring procedures in place with measurable executive summaries to review.

Management provides to the Board of Directors monthly reports that are continuously monitored to provide the District's outlook for the fiscal year. If management projects a negative trend the three-Board member finance committee is notified, and committee meetings are scheduled. With the continuous threat of drought conditions throughout the State of Texas water for several seasons, conservation has been strongly promoted and becoming the new norm. Tarrant Regional Water District has increased the District's estimated raw water purchase price from \$1.25503 in September of 2022 to \$1.29191 in March 2023 for TRWD Fiscal Year 2022, which reflects a increase to the District for raw water. The finance committee calls for meetings with management to review water and sewer rates annually and evaluates the importance of maintaining the District's 1.25 debt service ratio. The finance committee reviews managements recommendations and concludes if to place on the board's agenda to adopt a revised customer service resolution to include increases to the water and sewer rates annually. There were no rate increases and the cost of water and sewer tap installations stayed the same.

The District secured revenue bonds in FY2022 in the amount of \$9,870,000.00 to fund multiple improvement projects throughout the system. The projects include two (2) new ground storage tank at the Brookshire WTP, replacement of two (2) lift stations, installation of twenty-five hundred (2,500) AMR meters in the Districts southside, replacement of the North WWTP oxidation ditch catwalk, generators for both WTP's and both Raw Water Intakes, Rehab of the old South WWTP, and the North and South Side Master Plans. The Districts engineering firm, KSA Engineering, works with management and the Board to develop plans. After the plans have been developed, they must be submitted to the TCEQ for approval. Once TCEQ approves the plans, the District can move forward with securing a bond. Since the bond was just secured in November on 2022 the following projects have started: Brookshire WTP GST's, Master Plan, South WWTP Rehab, Southside AMR Meter Installation, and LS57 & LS 59 Rehab.

MAJOR INITIATIVES

District office personnel continue to schedule time for scanning customer related files which are accessible by staff electronically. This program assists office staff in expediting records electronically for review during customer concern calls regarding history issues.

The District continues to utilize the dual electronic back-up program. To enhance this process, the District extracts data files from District computers and stores at an offsite location. The District then has a back-up process to restore the District's data collected if office files become corrupted.

The cross-training program for staff remains to be a key program and has proven to be beneficial during times of vacations, vacancies, and sick leave.

FINANCIAL INFORMATION

Accounting Procedures and Budgetary Controls

Accounting records for the District's water/wastewater utility and other proprietary activities are maintained on the economic measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

The budgetary process begins each year with the preparation of both current and proposed year revenue estimates by the District's financial management staff, and expenditure estimates by each District department. Budgets are reviewed by the Board. As part of each year's budget development process, departments are required to update expenditure estimates for the current fiscal year. These estimates are reviewed by the Board, Bookkeeper, and the General Manager concurrent with review of the proposed budget. This re-estimated budget may require a supplemental appropriation and, if so, such supplemental appropriation is approved by a resolution adopted by the Board of Directors prior to the end of the current fiscal year.

OTHER INFORMATION

Independent Audit - East Cedar Creek Fresh Water Supply District has engaged the firm of Mike Ward CPA P.L.L.C. to perform the annual audit and their opinion has been included in this report. It should be noted that the auditors included all funds in their audit, performed their audit in accordance with generally accepted auditing standards, and stated that, in their opinion, the statements herein present fairly, in all material respects, the financial position of the District at March 31, 2023, and the changes in financial position and cash flows of its proprietary funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Acknowledgements

Many persons are responsible for the preparation of this report, and for the maintenance of records upon which it is based. Appreciation is expressed to the District's employees throughout the organization, especially those employees of the Accounting Department who were instrumental in the successful completion of this report.

Our appreciation is also extended to the Board Members of East Cedar Creek Fresh Water Supply District for providing the resources necessary to maintain the integrity of the District's financial affairs.

Respectfully submitted,

James E Blodgett Jr.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
East Cedar Creek Fresh Water Supply District
P.O. Box 309
Mabank, Texas 75147-0309

Opinions

I have audited the accompanying financial statements of the business-type activities of the East Cedar Creek Fresh Water Supply District ("District") as of and for the year ended March 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the District as of March 31, 2023, and the changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis of Opinions

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am required to be independent of the District, and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements related to my audit. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinions. Reasonable assurance is a high level of assurance but not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, I:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test

- basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
 - Conclude whether, in my judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that I identified during the audit.

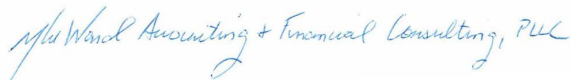

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement that basis financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, supplemental schedules required by the Texas Commission on Environmental Quality, statistical tables, and supplemental information listed in the table of contents are presented for purposes of additional analysis, and are not a required part of the basic financial statements but does not include the basic financial statements and my auditor's report thereon. My opinions on the basic financial statements do not cover the other information, and I do not express an opinion or any form of assurance thereon.

Respectfully Submitted,

Mike Ward Accounting & Financial Consulting, PLLC

Point, Texas

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
MARCH 31, 2023**

Within this section of the East Cedar Creek Fresh Water Supply District's ("District") annual financial report, management provides this narrative discussion and analysis of the financial activities of the District for for fiscal year ending March 31, 2023. Financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following the section.

Financial Highlights

- The assets of the District exceeded its liabilities at the close of the fiscal year by \$17,305,136 (net position). The portion of net position that can be used to meet the District's on-going obligations to citizens and creditors, the unrestricted net position, is \$4,005,263, or 23% of total net position.
- The District's total net position increased by \$607,828. This increase is due, in part, to increase in charges for services of \$1,195,048, or 16%, compared to the prior year.
- Net investments in capital assets totaled \$12,418,703. This amount includes property, equipment, and infrastructure less related accumulated depreciation, less outstanding debt used to purchase the capital assets, plus any unspent bond proceeds.
- The District's total net debt increased by \$8,711,460, or (80%), during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of two components; 1) fund financial statements, and 2) notes to the financial statements. The report also contains other supplementary information, in addition to the basic financial statements.

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS (continued)
MARCH 31, 2023**

The financial statements are designed to provide readers with an overview of the District's finances, in a manner similar to a typical private-sector business.

The District operates as a proprietary fund type, and presents its financial statements using the economic resources measurement focus, and the accrual basis of accounting. The District's basic financial statements include:

- Proprietary Fund Type – Statement of Net Position
- Statement of Revenues, Expenses, and Changes in Net Position
- Statement of Cash Flows
- Notes to the Basic Financial Statements

The Statement of Net Position includes all of the District's assets and liabilities, with the difference between the two reported as net position. Net position is displayed in three categories:

- Net Investment in Capital Assets
- Restricted
- Unrestricted

Overview of the Financial Statements

The District operates as a proprietary fund type. All proprietary fund types are accounted for on a flow of economic resources measurement focus. Under the flow of economic measurement focus, all assets and liabilities associated with the operation of these funds are included within the Statement of Net Position. Proprietary fund type operating statements present increases, (revenues), and decreases, (expenses), in total net position.

All proprietary fund types utilize the accrual basis of accounting. Under this method, revenues are recognized when earned, regardless of when received, and expenses are recognized at the time the related liabilities are incurred, regardless of when paid.

Notes to the Financial Statements – The accompanying notes to the financial statements provide information that is essential to a complete understanding of the data provided within the basic financial statements. The notes to the financial statements begin immediately following the basic financial statements.

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS (continued)
MARCH 31, 2023**

Schedule of Net Position

	<u>2023</u>	<u>2022</u>
Current and other assets	\$ 16,403,842	\$ 6,629,390
Non current assets	22,043,674	22,576,350
Total assets	<u>38,447,516</u>	<u>29,205,740</u>
Other liabilities	1,508,761	1,600,628
Long-term liabilities	19,633,619	10,907,804
Total liabilities	<u>21,142,380</u>	<u>12,508,432</u>
Net position:		
Net investment in capital assets	12,418,703	12,634,200
Restricted	881,170	924,593
Unrestricted	4,005,263	3,138,515
Total net position	<u>\$ 17,305,136</u>	<u>\$ 16,697,308</u>

As noted earlier, net position may serve over time as one useful indicator of the District's financial condition. The net position of the District was \$17,305,136, as of March 31, 2023. The District's net position increased by \$607,828, or 3.6%, during the fiscal year.

Net investment in capital assets

The largest portion, \$12,418,703 or 72%, reflects the District's investment in capital assets (e.g. land, buildings, machinery and equipment, and infrastructure), less any related debt still outstanding that was issued to acquire those items. The District uses these capital assets to provide services to customers; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of any outstanding related debt, the resources needed to repay that debt must be provided by other sources.

Restricted net position

The restricted net position of \$881,170, or 5%, of total net position, represents resources that are subject to external restriction on their use, or by enabling legislation. Restricted net position of the District is for debt obligations.

Unrestricted net position

Unrestricted net position of \$4,005,263, or 23%, of total net position is available to fund the District's programs to its customers and creditors.

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS (continued)
MARCH 31, 2023**

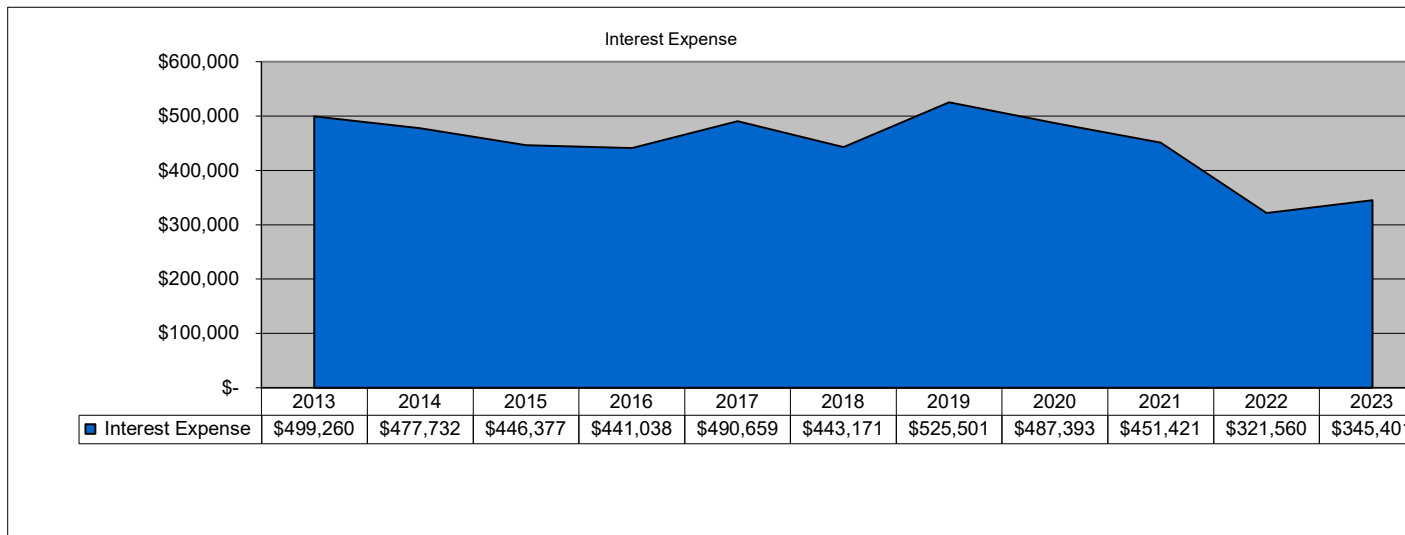

Changes in Net Position

	Business-type Activities		Total % Change
	2023	2022

REVENUES AND CHANGES IN NET POSITION

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS (continued)
MARCH 31, 2023**

Capital Assets - The District's investment in capital assets for its business-type activities, as of March 31, 2023, total \$22,043,674, net of accumulated depreciation. This investment in capital assets includes buildings, system infrastructure, land, machinery, and equipment. A net decrease in investment in capital assets of (1.78%) for the fiscal year occurred because of depreciation exceeding capital acquisitions.

Major capital improvements on-going during the fiscal year:

- North side water distribution system improvements.
- South side water distribution system improvements.
- Water meter system replacement.
- Lift station upgrades.
- Various equipment purchases.

**Capital Assets
(net of accumulated depreciation)**

	Business-type Activities	
	2023	2022
Land & Improvements	\$ 482,901	\$ 482,051
Machinery & Equipment	593,428	653,909

Infrastructure	20,769,735	21,255,018
Construction in Progress	13,367	-
Total	\$ 22,043,674	\$ 22,576,349

More detailed information about the District's capital assets is presented in Note E to the financial statements.

Long-term Debt - As of March 31, 2023, the District had long-term debt outstanding of \$19,541,979. During the fiscal year, total debt increased \$8,711,460, or 80%.

**Outstanding Debt
as of March 31**

	Business-type Activities	
	2023	2022
Utility System Revenue Bonds	\$ 19,541,979	\$ 10,830,519

More detailed information about the District's long-term liabilities is presented in Note G to the financial statements.

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS (continued)
MARCH 31, 2023**

New Pronouncements:

Statement No. 98, "The Annual Comprehensive Financial Report." This Statement establishes the term annual comprehensive financial report and its acronym ACFR. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. The requirements for this Statement are effective for fiscal years ending after December 15, 2021. Early application is encouraged.

Requests for Information

This report is designed to provide an overview of the District's finances for interested parties. Questions concerning the information found in this report, or requests for additional financial information, should be addressed to East Cedar Creek Fresh Water Supply District, P.O. Box 309, Mabank, TX 75147-0309.

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2023**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Board of Directors, a seven-member body elected by qualified voters of the District, is the governing body responsible for all activities of the East Cedar Creek Fresh Water Supply District ("District"), located in Henderson County. The Directors serve four years, staggered terms, that expire in even number years. The District was created on June 25, 1977 by House Bill No. 2165 passed by the 65th Legislature in 1977, as a conservation and reclamation district under Article XVI, Section 59, of the Texas Constitution, and has the powers of a municipal utility district under Chapter 54 of the Texas Water Code, as amended. As a municipal utility district, the District has the authority to levy ad valorem taxes to pay maintenance and operation expenses, payments under contracts, and to pay unlimited tax bonds, all subject to voter approval. The District has not voted to levy ad valorem taxes or issue bonds payable from ad valorem taxes. The District receives funding from various local, state, and federal sources, and must comply with the requirements of these funding entities. The District, and its operations, are subject to regulatory control by the Texas Commission on Environmental Quality, pursuant to various provisions of the Texas Water Code. The District covers approximately 20 square miles.

The accounting and reporting policies of the District, relating to the funds included in the accompanying basic financial statements, conform to accounting principles generally accepted in the United States of America ("GAAP"), applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board ("GASB"), the American Institute of Certified Public Accountants, in the publication entitled *State and Local Governments - Auditing and Accounting Guide*, and the Financial Accounting Standards Board, when applicable. The more significant accounting policies of the District are described below:

1. Reporting Entity

The District has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by GASB in its Statement No. 14, "The Financial Reporting Entity", as amended by GASB 39, "Determining Whether Certain Organizations are Component Units" under GASB 14. Component units are organizations for which the District is financially accountable and all other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. As of March 31, 2022, the District does not have any component units.

In addition, GASB Statement No. 61 considers an organization that does not meet the financial accountability criteria to be considered a component unit if management's professional judgment determines it to be necessary, and/or misleading, if omitted. This evaluation includes consideration of whether a financial benefit, or burden, exists in the relationship between the entities. Management has not identified any situations that fit this criteria.

2. Basis of Presentation, Basis of Accounting

The accounts of the District are organized on the basis of funds, or account groups, each of which is considered to be a separate accounting entity. The operations of each fund or account group are summarized by providing a separate set of self-balancing accounts which include its assets, liabilities, net position, revenue, and expenses. The sole fund type utilized by the District is described below:

Proprietary Fund - used to account for the operations of supplying water, which is a self-supporting activity rendering services on a user-charge basis.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services, and producing and delivering goods, in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary fund consider the portion of tap fees intended to recover the cost of connecting new customers to the system as operating revenue. Operating expenses for the proprietary fund include the cost of sales and service, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting the definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2023**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2. Basis of Presentation, Basis of Accounting (continued)

Proprietary Fund financial statements are reported using the economic resources measurement focus, and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Proprietary funds are accounted for on a flow of economic resources measurement focus. The accounting objectives are a determination of net income, financial position, and changes in cash flows. All assets and liabilities associated with proprietary fund activities are included within the statement of net position.

Proprietary funds are financed and operated in a manner similar to a private business enterprise. The costs (expenses, including depreciation), of providing goods or services to the general public on a continuing basis are financed or recovered primarily through user charges. Periodic determination of revenues earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The District presents their financial statements utilizing only the business-type fund. The District uses the accrual basis of accounting to prepare its financial statements. Revenues are recognized within the accounting period in which they are earned, and expenses are recognized when incurred. The District's operating activities are the sale of water and providing wastewater services to residential and commercial customers located in a limited geographical region. The statements, exhibits, and supporting schedules contained within the financial statements were prepared on the accrual basis of accounting, except for the statement of cash flows, which is a cash basis statement.

3. Financial Statement Amounts

a. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

b. Receivables, Inventory, and Amortization

Trade receivables are shown net of an allowance for uncollectible accounts.

Inventory is valued at cost using the first-in-first-out method. Inventory consists of expendable supplies held for consumption.

The costs incurred upon the creation of the District are being amortized on a straight-line method over 40 years.

c. Restricted Assets

Certain proceeds of the proprietary fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net position because of their use being limited by applicable bond covenants.

Customer deposits received for water and wastewater service are, by law, considered restricted assets.

d. Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the consumption method.

e. Capital Assets

Capital assets, which include land, buildings, equipment, and improvements, purchased or acquired, are reported at cost. The District defines capital assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost, or estimated historical cost, if historical cost is not available. Contributed assets are recorded at fair market value as of the date donated. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed.

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED MARCH 31, 2023**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3. Financial Statement Amounts (continued)

e. Capital Assets (continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-like activities is included as part of the capitalized value of the assets constructed, when found to be material. During the current fiscal year, no interest was capitalized.

Management elected not to retroactively report infrastructure assets within the scope of GASB 34.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Infrastructure	40 years
Buildings	40 years
Vehicles and Machinery	5-15 years
Office Equipment	5-10 years
Computer Equipment	5-10 years

f. Compensated Absences

District employees are entitled to certain compensated absences based on their length of employment. Regular full-time employees can accrue vacation as follows: 40 hours after one year of service, 80 hours after 2-4 years of service, 120 hours after 5-10 years, and 160 hours after 10 or more years of service. Sick leave can be accumulated and carried over from year-to-year, and 50% of a maximum 60 days is paid upon leaving the employment of the District.

g. Long-Term Obligations

Long-term debt, consisting of bonds to be repaid from revenues of the system, are included in these accounts. In all proprietary fund financial statements outstanding debt is reported as a liability. Bond premiums and discounts are deferred and amortized over the life of the bonds on a straight-line basis. Management has compared this method to the effective interest method and found the difference between the two methods to be immaterial. Bond issuance costs are expensed in the year they are incurred.

h. Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets consists of capital assets, less accumulated depreciation, less the outstanding balances of any borrowing used for the acquisition, construction, or improvements of those assets, plus any unspent debt proceeds. Net position is reported as restricted when there are limitations imposed on its use, either through enabling legislation adopted by the District, or through external restrictions imposed by creditors, grantors, or laws and regulations of other governments. Unrestricted net position for the proprietary fund represents the net position available for future operations or distributions. The District also has net position restricted by resolution for bond reserve and interest and sinking fund accumulations.

i. Budget

Prior to the start of the fiscal year, the governing board of the District adopts an operating budget for the upcoming fiscal year. The adopted budget and any subsequent amendments are approved by a resolution of the governing board, and documented in the governing board minutes. Budget amendments are required by the board only if events occur which prevent meaningful comparison of the budget to the actual results of operations. The adopted budget is not a spending limitation imposed by the Board. However, the governing board may adopt rules to limit the spending authority of the District's officers, in relation to the budget. A comparison of the actual budget, as amended, to actual results is presented in the Required Supplemental Section of this financial report. The budget is adopted under a modified accrual basis of accounting.

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2023**

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3. Financial Statement Amounts (continued)

j. Comparative Data

Comparative data of current year actual results to budget has been presented within the required supplementary section of the financial statement in order to provide for a better understanding of the District's expense management process.

k. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management estimates.

l. Program Revenues

Certain revenues, such as charges for services, are included in program revenues.

m. Program Expenses

Certain indirect costs, such as administrative costs, are included in program expense, and reported for individual functional activities.

B. COMPLIANCE AND ACCOUNTABILITY

1. Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

<u>Violation</u>	<u>Action taken</u>
None reported	Not applicable

2. Deficit Fund Balance or Fund Net Position of Individual Funds

The following are funds having a deficit fund net position at year end, if any, along with remarks which address such deficits:

<u>Fund Name</u>	<u>Deficit Amount</u>
None reported	Not applicable

C. DEPOSITS AND INVESTMENTS

The District's funds are required to be deposited and invested under the terms of a depository contract, pursuant to the Statutes of the Texas Water Code. The depository bank deposits, for safekeeping and trust with the District's agent bank, approved pledged securities in an amount sufficient to protect the District's funds on a day-to-day basis during the period of the contract. The pledging of approved securities is waived only to the extent of Federal Deposit Insurance Corporation ("FDIC") coverage.

Cash Deposits

At March 31, 2023, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments, petty cash) was \$15,324,375 and the bank balance was \$15,390,424. The District's cash deposits at the fiscal year end, and during the fiscal year, were entirely covered by FDIC, or by pledged securities.

Restricted Cash	
Debt	\$ 881,170
Customer Deposits	\$ 867,230
Infrastructure Projects	9,896,494
	<u>\$ 11,644,894</u>
Unrestricted Cash	\$ 3,679,481
Total Cash	<u>\$ 15,324,375</u>

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2023**

Statutes authorize the District to invest in obligations of the United States, the State of Texas, certain state agencies, certificates of deposit of state or national banks, or savings and loan associations within the State. The District had a total \$10,434,118 in certificates of deposit and \$2,879,908 in money market accounts.

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at fiscal year-end, and if so, the reporting of certain related disclosures:

Interest Rate Risk

In order to limit interest and market rate risk from changes in interest rates, the District's adopted Investment Policy setting weighted average days to maturity to be less than 180 days, and the maximum allowable maturity of one year.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. All of the District's cash deposits were either fully insured with FDIC, or pledged security at year end.

The District recognizes over-concentration of assets by market sector, or maturity, as a risk to the portfolio. The District's Investment Policy establishes diversification as a major objective of the investment program, and sets diversification limits for all authorized investment types, which are monitored at least on a monthly basis. In the opinion of management, the District was not exposed to a significant amount of credit risk at March 31, 2023.

D. RECEIVABLES

Receivables as of year end for the Proprietary fund, including the applicable allowances for uncollectible accounts, are as follows:

Receivables:	
Fees & Services	\$ 821,063
Allowance for uncollectibles	(52,533)
Net Receivables	<u>\$ 768,529</u>

E. CAPITAL ASSETS

Capital asset activity for the period ended March 31, 2023 was as follows:

	Beginning Balances	Additions	Decreases	Ending Balances
Business-type Activities

2028	825,000	580,408	1,405,408
2029 to 2033	4,505,000	2,525,225	7,030,225
2034 to 2038	5,315,000	1,718,356	7,033,356
2039 to 2043	5,130,000	677,358	5,807,358
Totals	\$ 19,365,000	\$ 8,070,030	\$ 27,435,030

A brief discussion of each bond issuance are as follows:

\$5,970,000 Utility System Revenue Bonds issued December 27, 2001 for the purpose of refunding Bond Series 1979 and Bond Series 1987.

\$3,095,000 Utility System Revenue Bonds issued November 1, 2015 for the purpose of purchasing, constructing, acquiring, owning, operating, repairing, improving or extending any District works, improvements, facilities, plants, equipment and appliances with respect to the District's Waterworks and Sewer System, including the acquisition of land and right-of-ways and to pay the costs associated with the issuance of the 2015 Series Bonds.

\$3,940,000 Utility System Revenue Bonds issued February 21, 2018 for the purpose of purchasing, constructing, acquiring, owning, operating, repairing, improving or extending any District works, improvements, facilities, plants, equipment and appliances with respect to the District's Waterworks and Sewer System, including the acquisition of land, right-of-ways, and to pay the costs associated with the issuance of the 2015 Series Bonds.

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2023**

G. LONG-TERM OBLIGATIONS (continued)

\$4,565,000 Utility System Revenue Refunding Bonds, Series 2020 issued September 16, 2020 for the purpose of refunding a portion of the District's outstanding debt, debt savings, and to pay the costs associated with the issuance of the Bonds.

\$9,870,000 Utility System Revenue Bonds, Series 2022 issued October 1, 2022 for the purpose of purchasing, constructing, acquiring, owning, operating, repairing, improving or extending any District works, improvements, facilities, plants, equipment and appliances with respect to the System, including the acquisition of land and right-of-ways therefor and to pay the costs associated with the issuance of the 2022 Series Bonds.

H. DEFERRED COMPENSATION PLAN

Deferred compensation plans described in IRC section 457 are available for certain state and local governments and non-governmental entities, and are tax exempt under IRC 501. Plans eligible under 457b allow employees of sponsoring organizations to defer income taxation on retirement savings into future years.

The District implemented a 457b Deferred Compensation Plan for its employees. Under Section 457b of the Internal Revenue Code, an employee may defer a maximum of pre-deferred taxable income of \$20,500 per year. Effective January 1, 1997, the District may elect to make loans available to participants of the Plan. An employee becomes 100% vested after five years.

The employee may withdraw assets from his/her account either upon retirement, leaving employment, or severe financial hardship. The employee must begin receiving benefit payments no later than April 1 of the calendar year end he/she reaches the age of 70 1/2 or the year in which he/she retires, if later.

Payments may be paid as follows:

1. Lump sum distribution
2. Periodic payments over a specified number of years
3. Periodic payments over the determined life expectancy
4. A periodic payment of a specified amount per month, or year, until the account is exhausted
5. Purchase of a lifetime annuity

In the event of death, the designated beneficiary is eligible to withdraw the deferred compensation plan benefit.

The plan is administered by ICMA/RC Retirement Corporation ("RC"). RC is a not-for-profit, independent corporation, founded by public sector employees in 1972 to provide retirement plans exclusively for state and local government employees.

The Plan summary is as follows:	<u>FYE 3/31/2022</u>	<u>FYE 3/31/2023</u>
Beginning Fund Balance, April 1	\$ 715,664	\$ 761,805
Contributions	56,014	72,979
Earnings/(Loss)	(43,713)	(41,689)
Distributions & Fees	33,840	(55,016)
Ending Fund Balance, March 31	<u>\$ 761,805</u>	<u>\$ 738,078</u>

I. HEALTH CARE COVERAGE

During the year ended March 31, 2023, employees of the District were covered by a health insurance plan. The District pays 100% per month per employee, and 50% of the cost for dependent coverage. Employees are authorized to direct payroll to withhold for dependent coverage. All contributions were paid to Blue Cross Blue Shield of Texas. The Plan is approved by article 3.51-2, Texas Insurance Code, and documented by contractual agreement.

J. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. The District had general liability coverage at a cost the District considers to be economically justifiable by joining together with other governmental entities within the State, as a member of the Texas Municipal League Intergovernmental Risk Pool ("TML"). TML is a self-funded pool operating as a common risk management and insurance program. The District pays an annual premium to TML for its coverage. The agreement for the formation of TML, provides that TML will be self-sustaining through member premiums, and will reinsure through commercial insurance for claims in excess of acceptable risk levels; however each category of coverage has its own level of reinsurance. The District continues to carry commercial insurance for other risks of loss. There were no significant reductions in commercial insurance coverage in the past fiscal year, and settled claims resulting from these risks have not exceeded coverage in any of the past four years.

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2023**

The District estimates that the amount of actual or potential claims against it, as of March 31, 2022, will not materially affect the financial condition of the District. Therefore, the accompanying financial statements do not contain a provision for any such claims.

K. LITIGATION

The District may be subject to certain legal proceedings in the normal course of operations. In the opinion of management, the aggregate liability, if any, with respect to potential legal actions, would not materially affect the District's financial position, results of operations, or cash flows.

L. ENGINEERING REPORT

There is no special provision of the bond resolutions regarding engineering reports. The engineer is available to review the operations and physical conditions of the system.

M. WATER AND WASTEWATER SERVICES

Waterworks System

The District's utility system is comprised of two water treatment plants, water storage facilities, distribution lines, and two wastewater treatment plants, and related collection facilities. The District serves water and sewer customers within its boundaries, and outside its boundaries in the areas designated in separate certificates of convenience and necessity issued by TCEQ.

The District's source of raw water is Cedar Creek Reservoir, pursuant to separate contracts with Tarrant Regional Water District ("TRWD"), and the City of Trinidad, Texas. The contract with TRWD does not limit the amount of water the District may buy. The contract with the City of Trinidad, Texas is limited to 750 acre/feet per year but at a lesser cost. Raw water is pumped from Cedar Creek Reservoir directly to the plants, with screening in place to prevent debris from entering the plants.

The District operates two conventional water treatment plants. The McKay Water Treatment Plant ("McKay WTP") provides water to customers in the southern portion of the District, and the Brookshire Water Treatment Plant ("Brookshire WTP") services customers in the northern section.

McKay WTP, located off Hwy 198 just prior to entering the Town of Enchanted Oaks, has been in operation for approximately 20 years. The McKay WTP has a water treatment capacity of 1.73 million gallons per day. Two ground storage tanks and one elevated water tower provide a treated water storage capacity of 637,000 gallons.

Brookshire WTP, located off Welch Lane in Gun Barrel City, is more than 25 years old. Brookshire WTP has a water treatment capacity of 4.0 million gallons per day. Two ground storage tanks and one elevated water tower provide a treated water storage capacity of 1,570,000 gallons.

Wastewater System

The District operates two wastewater treatment plants ("WWTP"). The south WWTP is located along the east side of Hwy 198 just north of the entrance to the Town of Enchanted Oaks, and serves the southern area of the District. The north WWTP is located in an unincorporated area on Hammer Road, just off Welch Lane in Gun Barrel City, and serves the District's northern sector.

The south WWTP is approximately 20 years old with a permitted capacity of 196,000 gallons per day, or 0.196 million gallons per day, as stated within the permit. Less than one-third of the plant's capacity is used daily. This WWTP sits on a 178-acre tract with 1.34 acres dedicated toward water irrigation from the plant. Treated water effluent from the plant is processed to a large holding pond, and then utilized as irrigation source water. The residual sludge is processed for disposal to a sanitary landfill.

The District has contracted for the cutting, bailing, and selling of hay from the plant's irrigated acreage. The District received \$9,100 in hay sales during the current fiscal year.

The north WWTP was built in 1979 with a treatment capacity of 0.626 million gallons per day ("MGD"), with a surge capacity of 1.3 MGD for a period not to exceed two hours. With upgrades over the years, the District is now permitted for a treatment capacity of 0.750 MGD, which will satisfy the District's needs for approximately 10 years. The new permit imposes more challenges to the treatment process due to new and more stringent water quality discharge limits. The major portion of the latest upgrades was due to the need to construct a 1-MGD tertiary clarifier to treat and reduce phosphorous limits to a 1 part per million or less prior to discharging effluent from the treatment facility directly to Cedar Creek Lake.

**EAST CEDAR CREEK FRESH WATER SUPPLY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 2023**

Additional Services

The District collects water and sewer franchise fees for the City of Gun Barrel, Town of Enchanted Oaks, and Payne Springs. These funds are paid to the three entities once a year - City of Gun Barrel is paid in August of each year, the Town of Enchanted Oaks and Paynes Springs are paid in January of each year. The District does not charge an administrative fee for this service.

N. CONSTRUCTION COMMITMENTS

The District had the following active construction projects as of March 31, 2023.

<u>Project</u>	<u>Spent-to-date</u>	<u>Estimated Remaining Commitment</u>
1. Water tower construction, 300,000 gallon capacity.	972,058	128,942
2. Southside wastewater treatment plant improvements.	1,200,902	68,298
3. System-wide meter replacements.	421,574	40,229
Total	\$ 2,594,534	\$ 237,469

O. SUBSEQUENT EVENTS

The District has evaluated all events or transactions that occurred after March 31, 2023 through July 18, 2023, the date the financial statements were available to be issued. During this period, the District was not aware of any significant events requiring disclosure.

7. Location of District:

County(ies) in which District is located.

Henderson

Is the District located entirely within one county?

Yes No

Is the District located within a city?

Entirely Partly Not at all

City(ies) in which district is located.

Gun Barrel City, Enchanted Oaks, Payne Springs

Is the district located within a city's extraterritorial jurisdiction (ETJ)?

Entirely Partly Not at all

ETJ's in which District is located.

Gun Barrel City, Payne Springs, Enchanted Oaks, Mabank

Is the general membership of the Board appointed by an office outside the District?

Yes No

If Yes, by whom? N/A

STATISTICAL INFORMATION
(Unaudited)

STATISTICAL SECTION (unaudited)

This part of the East Cedar Creek Fresh Water Supply Districts' Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, notes disclosures, and supplementary information says about the Water Supply District' overall financial health. This information has not been audited by the independent auditor.

Contents

Table #s

Financial Trends

This table contains trend information to help the reader understand how the Water Supply's financial performance and well-being have changed over time.

1

Debt Capacity

This table presents information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

2

Economic and Demographic Information

This table offers economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place.

3

Operating Information

These tables contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides.

4,5,6
